-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 27 June 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 1775

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2,4,5,7,9,16-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear whether the interfacial layer is an additional layer or it is a further description of the ceramic layer rendering the claims indefinite. If it is an additional layer is it unclear where it is located in relation to the other claimed layers.

Applicant's arguments filed 6-27-05 have been fully considered but they are not persuasive. The amendment to identify that the ceramic layer of the interfacial laminate is adjacent to the substrate does not overcome this rejection. The claims are still unclear and thus the rejection stands. If the limitations in these claims further describe the ceramic layer or describe an additional layer, the claims language should be clear.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the

Art Unit: 1775

applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-26 are rejected under 35 U.S.C. 102(b) as being anticipated by Dearnaley et al (6,087,025).

The rejection is maintained for reasons of record in office action mailed 3/25/05. Applicant's arguments filed 6/27/05 have been fully considered but they are not persuasive. The reference clearly includes a metal carbide layer formed between the DLC and additional layer (column 3, lines 13-22) and thus provides for the instant invention and thus the rejection stands..

5. Claims 1-9,15-26 are rejected under 35 U.S.C. 102(e) as being anticipated by Welty et al (6,904,935).

Welty et al discloses the claimed diamond layer on a substrate having the claimed intermediate layers thereon (column 5, lines 33-52).

6. Claims 1-9,15-24,26 are rejected under 35 U.S.C. 102(b) as being anticipated by Chen et al (5,224,969)

Chen et al discloses the claimed diamond layer on a substrate having the claimed intermediate layers thereon (example in column 6).

Art Unit: 1775

7. Claims 1-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Kimock et al (5,135,808)

Kimock et al discloses the claimed diamond layer on a substrate having the claimed intermediate layers thereon (figure 2).

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Archene Turner whose new telephone number is (571) 272-1545. The examiner can normally be reached on Monday through Wednesday, and Friday from 10:30 am. to 6:00 pm.
